

Do you have a learning disability?

Then the **Staying Alive and Well group**

invites you (and your supporter) to join their **Zoom meeting**

to watch our new video!

When: Tuesday 6th June

Time: 11.00-11.45

What is the new video about?

We are a group of people with learning disabilities.

We work on the **LeDeR** Programme.

Our new video explains:

- What LeDeR is
- What our group does

What is LeDeR?

LeDeR looks at deaths of people with a learning disability and autistic people.

Every year, there is report.

The report has big numbers in it, and lots of jargon.

Our job is to make the report easier to understand.

We will watch the video twice.
Then we will talk about it together.

REMEMBER:

We will talk about **death and dying**.

This can be upsetting.

It is good to watch the webinar together with someone, so you can talk about it afterwards.

Do you want to come?

Click on this:

Or **email** Jonny:

j.ding@kingston.ac.uk

We have space for **75 people** in the meeting.

If more people want to come, they may not be able to join.

If you can't get in, we're sorry....

But we'll put the video on YouTube afterwards!

If you don't have a learning disability, this meeting is not for you. Instead, please come to the **webinar at 12.30pm** (hosted by the PCPLD Network). We will show the same video – and more! **[Book here](#)**
