

Assisted Dying

Kingston
University
London

Hello!

We are Fred, Richard, Irene and Christina. We are researchers from Kingston University.

We want to talk to people with a learning disability about **assisted dying**.

Some people don't know what assisted dying is. That's OK. We will explain it to them.

We still want to talk with them about it.

We will talk together about what assisted dying means, and what you think about it.

We will meet in a group.
It will last 2 hours.

Do you want to be in the group?

You can have your carer or supporter with you, if you want.

There will be other people with a learning disability in the group.

Do you want to find out more?

You can:

- Watch our information video.
- Talk with the person who gave you this leaflet. They can help you find out more about it.

Then you can decide if you want to say

YES or NO.
